Dear Dr. Ruban,

Greetings from Biofuels 2022

With great pleasure we invite you as a speaker to the “**15th International Conference on Biofuels and Bioenergy**” scheduled during **October 26-27, 2022** as a **hybrid event** i.e, **Both physically** (Tokyo, Japan) and **virtually** (Online).

Our research team had a glance at your published article “**Multiparametric Optimization on Influence of Ethanol and Biodiesel Blends on Nanocoated Engine by Full Factorial Design**” and which is very remarkable and thought it would be an excellent fit for the Conference.

For more details: [Biofuels 2022](#).

Looking forward to hearing from you soon.

Please feel free to contact us for further queries.

Thanks & Regards,
Nora Katherine | Program Manager
