#### Foreword

The Higher Educational Institutions play an important role in development of individual, family and society, laying foundation of a strong nation. The goal is to enrich all fields of knowledge, inculcate sense of responsibility and enhance the inner potential of an individual.

At present Indian Higher Education system enrols 3.6 Crore students. It is the responsibility of Universities/Colleges to provide quality education to each and every student. The transition of students from secondary to higher education or from undergraduate to postgraduate study needs support of the Institution in a way that they develop a sense of belongingness and an awareness of their rights as well as responsibilities.

University Grants Commission (UGC) has initiated organisation of Induction Programme with a purpose to help students acclimatise with the new surroundings, develop bond with fellow students and teachers, sensitivity towards various issues of social relevance and imbibe human values so as to become the responsible citizens. Ensuring a well designed Induction programme will help both teachers and students for setting the pace of fruitful teaching-learning experiences.

With this aim, I am happy to share, 'A guide to student Induction Programme' and exhort all Universities/Colleges to plan and execute Induction programme for students entering into the realm of Higher Education. I am sure under your able guidance the purpose of this programme will be achieved.

(Prof. D.P. Singh)

Independence Day
