Online Education

1. Does all programs/courses were completed on time.	Yes
2. Measures taken to complete the syllabus of courses and programs.	<p>Advancement in technology allows students to study entirely online while still socializing with classmates, watching lectures and participating in subject-specific discussions. Learning Management System enhanced the effectiveness of on-line knowledge transfer from the faculty to the students. The faculties are given with individual G-suite ID so that they can log in to their classrooms that were created for all the courses and subject and post assignments, notes, quizzes and other activities on that. Live classes are taken on google meet with the same G-suite ID and these sessions are recorded and shared with the students for the need of absentees and for other future references. Such methods helped in timely completion of the syllabus. The submission of Assignments and conduct of quiz were also enabled in Google Classroom. Student Evaluation was done by assigning tests to them and scores were returned immediately.</p> <p>Online platform links such as the following, to the students were shared on the WhatsApp class groups and Telegram chat.</p> <ul style="list-style-type: none"> • G Suite links (including classroom) • LMS(learning management system) • SWAYAM • COURSERA • NPTEL • GREAT LEARNING <p>The biggest challenge in the shift to online classes was trying to help students work through issues and calculations for a lab procedure they had never actually run themselves. Screen sharing and annotations on video classes were essential in overcoming this obstacle. Since students needed to understand the experiment without actually doing it, they were required to make a brief presentation of the experimental plan and data analysis plan</p> <p>This enabled the students to understand what should be done in the lab and why.?</p> <p>Resources used for Online Learning</p> <ul style="list-style-type: none"> • EBooks • Journals • Videos • Recorded lectures • Quizzes • Discussion forums • Live Q&A sessions • Interviews (feedback) <p>Online Learning Assessments</p> <p>This process initially seemed to be little intimidating for those new to online education</p> <p>At our institution where almost all the faculties are tech savvy and experienced professionals, we ensured that the assessments are fair, comfortable, and designed to help the students make the most of their learning experience.</p> <ul style="list-style-type: none"> • Individual Assignments - probably this is a method of assessment that our students will have the most experience with. For each assignment, the student will receive their topic, deadline and word count. They will be required to produce a structured, reasoned argument within the boundaries set out by their course instructor. • Discussion activities - Online academic discussion requires a different set of skills, and might not come as naturally when students first start their online learning journey. But they gradually learn! The faculty generally start each discussion off with a question or topic for debate. Students then need to research the topic and post their responses to the task demonstrating their own knowledge and understanding. <p>Online classes were conducted during June 2020 to Dec 2021. Around 3,00,000 teaching hours of online classes were conducted for the benefit of a total number of 10,000 students and 700 faculty members have engaged in the online program. All the class rooms have been enabled with ICT facilities with LAN and computers / laptops.</p>

3. The period of delay in completion of syllabus (in months).		0	
4. The period of delay in conducting exams (in months).		0	
Portal Name	No. of students offered online courses which have credit transferred to transcript	Total no. of online courses which have credit transferred to the transcript	Total no. of credits transferred to transcript
Swayam	29	4	87
