Department of Training and Placement

Circular

To

HOD's of B.E. CSE, ECE, EEE, Mechanical, Automobile, Civil, B.Tech. Biotech, Petroleum, B.Tech IT, Biomedical.
VISTAS.

Dear Sir / Madam,

Sub: Softskills and Aptitude Training Programme

The details of Softskills and Aptitude Training Programme are given below. It is mandatory for all final year students except sports and NRI students.

Trainers	Departments	Dates
Kings Learning Trainers	B.E. CSE, ECE, EEE, Mechanical, Automobile, Civil, B.Tech. Biotech, Petroleum, B.Tech IT, Biomedical.	14th February 2022 to 22th February 2022

Total No of hours – 40 hours

Timing: 9.00 a.m. to 2.30 p.m. (Lunch: 12.30 p.m. to 1.00 p.m.)

The Students must be present in all 8 days: Timing: 9.00 a.m.

Discipline: The HOD's and respective class incharge Staff to ensure the student's discipline. If any student violates and indulges in unlawful activities against the trainer, disciplinary action will be taken against him/her. Absentees will not be allowed to take part in Campus Drive Process.

 9/2/22
CHIEF PLACEMENT OFFICER

Call for Papers

Original unpublished Research papers/Reviews are invited from Students / Faculty/ Industry persons to be presented in the conference. The papers will be selected after Plagiarism check using Turnitin software.

Last date for Abstract Submission	8/3/2022
Last date for Full Paper Submission	10/3/2022

*Selected papers will be published in an edited book (ISBN number : 978-93-5620-200-9) and authors have to pay an additional amount of Rs. 250.

Guidelines for submission:

1. Paper can be submitted individually or jointly sent with the maximum of three authors (including the main author).
2. Authors and co-authors should register individually.
3. Paper must not exceed 10 pages and the abstract with maximum of 150 words.
4. Paper must be typed in Times new Roman 12.
5. Paper must contain the title, author(s), name, abstract, keywords, review of literature, research objectives, scope, research gap, procedure, major findings and direction for future research and references.
6. Full paper must be mailed to : bioenggevents@gmail.com
Note: Plagiarism should be less than 15%.

SCHOOL OF ENGINEERING Department of Bio-Engineering ORGANIZES

Two days National Virtual Conference on

“RECENT TRENDS IN BIOTECHNOLOGY AND ITS APPLICATIONS”

10.03.2022 and 11.03.2022

10.00 A.M. onwards

ABOUT VISTAS

Vels Institute of Science, Technology & Advanced Studies (VISTAS) is one among the premier educational institutions in India founded by Dr. Ishari K Ganesh, a visionary and an eminent educationist, in fond memory of his father Shri. Isari Velan, a former minister in the popular Govt. of Dr. MGR. Vels group of institutions was established in the year 1992 and granted Deemed to be University status by the Ministry of HRD, Govt. of India in 2008 (Under Sec 3 of UGC Act 1956) and now running 30 educational institutions. This esteemed institution offers courses in multiple streams over the last 25 years such as undergraduate, postgraduate and doctoral programmes in Medicine, Engineering, Management, Pharmaceutical Sciences, Maritime studies, Science and Humanities. VISTAS has been accredited with "A" grade by NAAC in its new regulation scheme and announced as mentor institution.

ABOUT THE DEPARTMENT

Department of Bio-Engineering under the School of Engineering was started in the year 2015. Department offers Undergraduate and Ph.D. Programme which undergoes various funded research projects. The department has well equipped laboratories for advanced research facilities in the areas of Biotechnology. The thrust areas of research include Molecular Biology, Drug discovery and Development, Bioprocess Technology and Environmental Biology.

ABOUT THE CONFERENCE

The conference aims to provide global virtual platform for discussing the new area of research and innovations in the field of Biotechnology. It covers the process of developing medicinally valuable compounds; modify hereditary traits of plants and animals, identification of new class of drugs, techniques to diagnose diseases and the treatment methodologies, development of recombinant proteins and all aspects of Environmental Remediation. It also provides a premier interdisciplinary platform for researchers, practitioners, and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of Biotechnology. This forum will provide expression of innovative ideas, novel thoughts and research expression as oral presentation where there is freedom to discuss, debate and defend their findings to benefit all the concerned.

Themes to discuss:

- Animal and Plant Sciences
- Biomaterials & Bioenergy
- Biophysics
- Bioprocess Technology
- Biotechnology in health care
- Chemical Reaction Engineering
- Computational Biology
- Drug Discovery and Development
- Environmental Biotechnology
- Genetic Engineering and Recombinant DNA Technology
- Intellectual Property Rights and Patents
- Bioentrepreneurship and innovative ideas
- Marine Biotechnology
- Medical Microbiology and Pathology
- Microbial biotechnology
- Mycology
- Nanotechnology
- Renewable and Nonrenewable energy
- Tissue Engineering

ABOUT THE VISTAS

Vels Institute of Science, Technology & Advanced Studies (VISTAS) is one among the premier educational institutions in India. This esteemed institution was founded by Dr. Ishari K Ganesh, a visionary and an eminent educationist, in fond memory of his father Shri. Isari Velan, a former minister in the popular Govt. of Dr.MGR. Vels Group of Institutions was established in the year 1992 and granted the Deemed to be University status by the Ministry of HRD, Govt. of India in 2008, University Grant Commission (under Section 3 of UGC Act 1956). It offers courses in multiple streams over the past 25 years such as undergraduate, postgraduate and doctoral programmes in Engineering, Management, Pharmaceutical Sciences, Maritime Studies, Arts, Science and Humanities. VISTAS has been accredited with “A” grade by NAAC in its new regulation scheme and announced as mentor institution.

ABOUT THE SCHOOL OF LIFE SCIENCES

The School of Life sciences offer UG, PG, M.Phil & Ph.D programmes in Biochemistry, Microbiology, Biotechnology and Bioinformatics with excellent infrastructure facilities including well-equipped laboratories and dedicated faculty members.

DEPARTMENT OF BIOTECHNOLOGY

Department of Biotechnology at VISTAS Chennai, was established as a new academic unit under University of Madras in 2002, with the objective of integrating life sciences with engineering and to develop cutting-edge technology through research, training and technological innovation. An independent Department of Biotechnology under VISTAS was established in the year 2008. Since its inception, the department has witnessed a consistent rise in the students demand for the subject. Keeping a beat to the global demands for researchers in this field, B.Sc, Biotechnology, M.Sc Biotechnology, M.Sc Applied Medical Biotechnology and Clinical Research, M.Phil and Ph.D Biotechnology programmes are being run by the department. The department has a team of young enthusiastic and well experienced qualified faculty actively involved in research and teaching.

ABOUT THE WORKSHOP

The unemployment crisis, drought conditions, rising of unpredictable climatic condition due to environmental alteration or global warming, probably leads to economic imbalance. cultivation of mushrooms throughout the world had enhanced and established as a new source of income, to a great number of small farmers around the world.

The main reason for their interest is that mushroom crops enjoy higher profit margins and quicker returns than most other agricultural crops. in addition, their nutritional and medicinal values reported all over the world make it an important alternative source of dietary protein. moreover, the cultivation of mushrooms can be established as a small family

business and all together they can bring in important foreign exchange when exported in large quantities. large scale cultivation of

mushrooms, purification, and characterization of drug molecules from them could provide novel drugs for Cancer treatment also provide additional revenue/avenue to farmers.

OBJECTIVE OF THE PROGRAMME

Standard isolation and optimization of biomass production of the selected mushroom by using various substrates and by addition of inducers for increasing the production of mushrooms.

PROGRAMME SCHEDULE

Modules	Training Coordinator
22.02.2022	
Introduction & Isolation of Mushroom culture	Dr. P. William James EFGC Biological Farm, Chennai
23.02.2022	
Preparation of Mother spawn/ Substrates and beds	Dr. M. Kumar Assistant Professor Department of Plant and Animal Biotechnology Madras Christian College, Chennai
24.02.2022	
Harvesting, Preservation, Packing and Marketing	Dr. Arun Babu Realgae Biopharma Solutions, Chennai

Respected Sir,

Sub: Requesting Permission to conduct the **Health Awareness Program** and financial assistance - Reg

I am writing this letter to seek permission to conduct the **Health awareness program** for the students in the pandemic situation . I would like to say to you that this awareness program will bring many changes to the students. This awareness program will help the students to dispel misinformation while promoting health recommendations and medical guidelines. In this context we would like to invite **Mr. Antony Regan**, Senior Manager, 3M India ltd to deliver lecture on **An overview of Hand Hygiene and hand washing technique** on 10/05/2022, at lecture theatre, VISTAS. For the smooth conduct of this program we request financial assistance of Rs. 3000/-. (Honorarium Rs. 2000/- + TA Rs. 1000/- for the resource person).

(A)

We would request you to please accept our letter and support us to conduct this awareness program.

Thank you

Respected Registrar

(A) may be approved
Yours sincerely,

Dr. C.Gnanavel

COURSE HIGHLIGHTS

1. Exclusive SPSS learning for research and publication purposes.
2. More than 80% of practice sessions.
3. Complete package from data entry to typical test applications.
4. Expert faculties and trainers.

COURSE OUTLINE

MODULE 1

Introduction to SPSS, downloading and installation of software; Basics of statistics

MODULE 2

Data entry and import of data from various types of files.

MODULE 3

Data computing, recoding, and transformation; Descriptive Statistics
Comparing means with significance and special assumptions.

MODULE 4

Chi-square test; Paired sample t-test; Independent sample t-test; One-way ANOVA; One-way repeated measures ANOVA.

MODULE 5

Linear & Multiple regression; Logistic regression; Reliability testing; Correlations and Measures of associations.

MODULE 6

One-way analysis of Covariance (ANCOVA); Multivariate Analysis of Variance (MANOVA); Graphical representation of data in SPSS etc.

COURSE COORDINATOR

Dr.K.Karthickeyan

Professor & Head
Department of Pharmacy Practice

hodppractice@velsuniv.ac.in

COURSE HIGHLIGHTS

Pharmacovigilance is an anchor throughout the life cycle of new drugs and devices due to a demand created by the requirement of new medical treatments and their legislation.

The program enables the professional to develop a solid foundation in pharmacovigilance and helps to cultivate advance skills and competence to manage and deliver quality systems and quality results.

COURSE OUTLINE

MODULE 1

Introduction to Pharmacology, Clinical Trials and Pharmacovigilance; Epidemiology and Evidence Based Medicine;

MODULE 2

Principles of Pharmacovigilance; Basics of Drug Development.

MODULE 3

Pharmacovigilance Systems; Methodologies in Pharmacovigilance; Statistical Reasoning and algorithms; Pharmacoepidemiology.

MODULE 4

Seriousness & Expectedness & Causality Assessment Criteria; Signal Detection, Assessment and Data Mining; Aggregate Safety Reports.

MODULE 5

Management Systems and Drug Dictionaries in Pharmacovigilance
Regulatory Processes for Medical Devices;
Pharmacovigilance Regulations & Guidelines.

MODULE 6

Pharmacovigilance Programme in India (PVPI); Materiovigilance and MVPI; Pharmacovigilance Compliance and Inspections; Audits. Case Study

DEPARTMENT OF PHARMACY PRACTICE
SCHOOL OF PHARMACEUTICAL SCIENCES
OFFERS

VALUE ADDED COURSE

PHARMACOVIGILANCE & DRUG SAFETY

DURATION: 30 HOURS
JANUARY 2022 - MAY 2022

COURSE OUTLINE

MODULE 1

Medication Complexity -Introduction;
Medication Complexity – Identification
and importance with Case Analysis

MODULE 2

Medication Regimen Complexity Index
(MRCI): Introduction & Importance

MODULE 3

Sections of MRCI & It's Applications; Medication
Complexity: Resolution and Case Analysis;
Introduction and statistics to Medication Errors.

MODULE 4

Classification of Medication Errors; Adverse Drug
Reactions & Adverse Drug Events;
Drug Knowledge Dissemination;
Resolution of Medication Errors and Case Analysis.

MODULE 5

Professional Medical Communication; Seven R's;
Medication non-compliance

MODULE 6

Patient Counselling: Introduction & Importance;
Simulation training on patient counselling

COURSE HIGHLIGHTS

- One of the most unique curriculums ever made in India.
2. Experienced and well qualified faculties from around the globe.
3. Realistic clinical illustrations and case analyses.
4. Improved approaches from feedbacks

The limitations of cloud based IoT deployments

Most of current IoT deployments rely exclusively on cloud computing & storage. This comes with a number of challenges

- All IoT data does not need to be transmitted to the Cloud → Waste of bandwidth
- Not ideal for critical applications involving large scale deployment → Higher latency and cost
- Most data sourced to the cloud often bears no practical value and sometimes never used → Unwanted data storage
- Limited security measures covering end-2-end → High chances of attacks

Challenges for certain IoT applications enabled on Cloud

Latency	High
Job	High
Security issues	Low
Awareness about Location	No
Interoperability	How to Address
	Lowest Support

To: Registrar Vels University <registrar@velsuniv.ac.in>

Sir,

The Department has a proposal to organize a Webinar on "Syntactic Parsing" for our III B.E CSE students, on March 14th, 2022 in association with **Computer Society of India (CSI)**. Kindly permit us to organize this session and the details are as follows:

Resource Person : Dr.V.Vidhya,
Head of the Department, Dept of IT,
Sri Venkateswara College of Engineering

Date : March 14, 2022

Participants : III year B.E CSE Students and Faculty Members

Financials are not involved in the conduct of this program.

Thanks

Regards

TITLE: Software Quality Assurance using Selenium

Resource person: Mr.M.Arun
Kumar

Date:09-05-2022

Time:10:30 am to 2:00pm

Participants: Students of Department of Computer Science and Engineering.

Topics covered:

Various fields in IT industry:

There are several success stories about people who chose Information Technology as a career. Be it Steve Jobs, Bill Gates or Mark Zuckerberg, the IT sector has a long list of icons who had made their fortunes starting from scratch.

Since the genesis of humanity, *Homo sapiens* have been fascinated with creating something new. This quest of human beings has led the foundation of the discovery of these modern days' sophisticated and state-of-the-art technologies that ease out the hardships of our lives. It seems that this quest for the invention is still drawing youngsters toward the

Information Technology (IT) sector. Besides, when it comes to career prospects, techies are one of the highest-paid professionals.

- **Introduction to software testing:**

- ✓ What is testing in software industry?

Software testing is the process of evaluating and verifying that a software product or application does what it is supposed to do. The benefits of testing include preventing bugs, reducing development costs and improving performance.

- ✓ Why testing is needed for a software?

Software testing is necessary because we all make mistakes. Some of those mistakes are unimportant, but some of them are expensive or dangerous. We need to check everything and anything we produce because things can always go wrong humans make mistakes all the time.

- ✓ What is the scope in future for testing?

Software testing career Over the last few years, the profile of the software tester has seen phenomenal growth. Testing has become crucial for several application/product implementations and businesses have begun to realize the importance of structured testing of applications before their release.

In recent times, testing is seen as a good professional career for many. From being a test engineer, one can grow to become a senior test engineer, from a test lead to a test manager; or alternatively, one can become a QA lead or QA Manager. Moreover, the options available in the testing tools side are vast. There are a number of functional, performance, security testing tools besides test management tools like Quality Center from HP, CQTM from IBM etc. The growth prospects in the Software Testing domain are tremendous. As per the Gartner Forecast, the industry will be worth \$50 million with forecasted CAGR of 14 percent through 2014

- ✓ What is automation?

Automation Testing is a software testing technique that performs using special automated testing software tools to execute a test case suite. On the contrary, Manual Testing is performed by a human sitting in front of a computer carefully executing the test steps.

The automation testing software can also enter test data into the System Under Test, compare expected and actual results and generate detailed test reports. Software Test Automation demands considerable investments of money and resources.

Successive development cycles will require execution of same test suite repeatedly. Using a test automation tool, it's possible to record this test suite and re-play it as required. Once the test suite is automated, no human intervention is required. This improved ROI of Test Automation. The goal of Automation is to reduce the number of test cases to be run manually and not to eliminate Manual Testing altogether.

- ✓ What are the requirements to test a software?

Here are 7 skills that you as an automation tester must highlight in your CV.

Jump to

- Proficiency in programming languages

- Mastery of leading automation testing tools (codeless ones too)
- Experience in manual testing
- Familiarity with Agile & DevOps methodologies
- Excellent reporting, time management, analytical & communication capabilities
- Knowledge of test management tools
- Understanding of hands-on business requirements

- **Introduction to Selenium:**

Selenium is an open-source tool that automates web browsers. It provides a single interface that lets you write test scripts in programming languages like Ruby, Java, NodeJS, PHP, Perl, Python, and C#, among others. A browser-driver then executes these scripts on a browser-instance on your device (more on this in a moment).

- **Role of programming language in automation:**

Java is the commonly used programming language for Selenium across the world. There are various reasons why Java is used for Selenium.

- Java is the popularly used language in the IT industry, the Huge community promoting it along with the massive repository of references.
- About 77% of Selenium Tester is using java which makes knowledge sharing very quick and easy.
- In Java, there is an abundance of readily available frameworks, plugins, APIs and libraries that encourage Java for test automation.
- Java makes use of JVM, it is a platform-independent language. It can be used in the Operating environment where JVM is installed.
- Java is statically typed, and the Java IDEs give a set of feedback on errors that you might face while coding.

- **Hands on with selenium:**

There was a hands on session in selenium using java in which every student were provided with individual systems so that each and every student can work and gain some knowledge in selenium. In the end of the session students were able to automate a mini project on their own.

Below are the prerequisites for the Hands-On session.

1. Eclipse

2. Selenium Web Driver - Download the Stable Java Driver (Download from <https://www.selenium.dev/downloads>)

3. Latest Browser Driver - Download from the internet for respective browsers.

- **Sample images of the session:**

- **Introduction to resource person:**

Name: Arun Kumar M

Designation: Senior QA Engineer

Company: CredAvenue

Experience: Over 5 years of experience in the field of manual and automation testing.

- **Summary:**

In this session more than 80 students participated from the department of Computer Science and Engineering BE (CSE) and B.Tech (IT) . The session was organized by Vels Institute of Science , Technology and Advanced Studies (VISTAS).In this session students were taught how to install selenium and to automate a software using selenium and java. The students had a very interactive session and the Alumini inspired many students to get into the IT industry. In the end of the session students asked their own doubts regarding their career and how to start.

Seminar Details

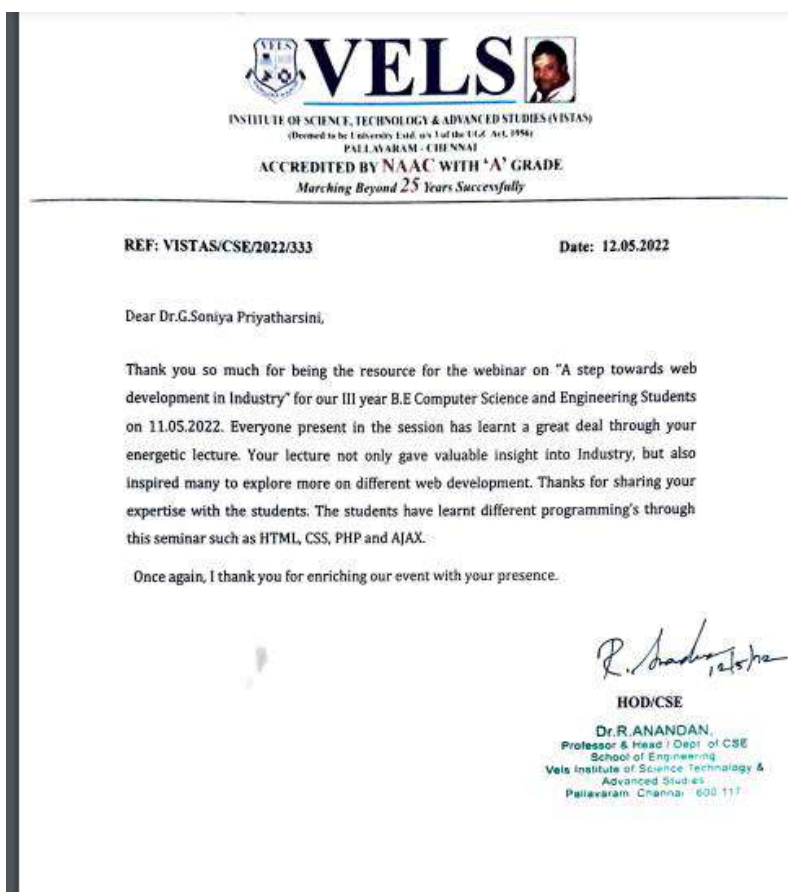

TOPIC:	A STEP TOWARDS WEB DEVELOPMENT IN INDUSTRY
About Speaker:	DR. G. SONIYA PRIYATHARSINI ASSOCIATE PROFESSOR Dr.M.G.R. EDUCATIONAL AND RESEARCH INSTITUTE CHENNAI Featured Skills : Cloud Computing, Data structures, php/Mysql
Date of event :	Wednesday, 11-05-2022
Time duration -	10.30 am to 11.30 am
Event Report in brief :	In this seminar the students acknowledged a complete knowledge of Internet Programming The key points that were enclosed in the seminar were: <ul style="list-style-type: none">● HTML● DHTML● JAVA● PHP● AJAX
Student's Feedback:	In this seminar the students were introduced to topics from Internet Programming. she has given idea about how web development done in industry. Students got an idea on how to deal with some very common problems related to internet programming. All the students really appreciated the contents that were discussed, they realized that interactions likes these can help them improve their learning.
