

## JP MORGAN COMPANY-SPECIFIC TECHNICAL TRAINING PROGRAM

A focused **company-specific technical training program** was conducted from **17th to 20th March 2025** for a **select group of students**, in preparation for the **recruitment process at JP Morgan**, one of the world's leading financial services firms. The primary objective of the training was to strengthen students' **technical skills** and enhance their **readiness for assessments and interviews**.

The sessions were meticulously designed to cover **core technical concepts**, **analytical problem-solving techniques**, and **real-world case scenarios** aligned with JP Morgan's recruitment expectations. Alongside technical training, students received **expert mentoring** to boost their confidence, refine their focus, and effectively manage high-pressure interview situations.

This initiative stands as a testament to the university's **dedication to providing personalized, high-impact training** and ensuring that students are thoroughly prepared for prestigious placement opportunities.
