

VPS CODE BUILDERS TRAINING PROGRAM FOR ENGINEERING STUDENTS

A **10-day training program** by **VPS Code Builders** was successfully conducted for **all Engineering students** from **29th January to 11th February 2025**. The program aimed to enhance students' **technical proficiency, coding abilities, and practical problem-solving skills**, aligning with current industry demands.

Through hands-on sessions, real-time coding challenges, and expert mentorship, students gained valuable exposure to **software development practices and industry-relevant tools**. This initiative played a significant role in strengthening their technical foundation and preparing them for future placement opportunities.
