Blood Donation Camp

BLOOD BANK • 17 JUNE 2022 9AM-12:00PM

World Blood Donor day takes place on 14 June each year as marked by the **WHO**. The day was created to raise global awareness of the need for safe blood and blood products for transfusion, to highlight the critical contribution voluntary, unpaid blood donors and to support the National blood transfusion systems and NGOs in strengthening and expanding their voluntary blood donor programmes. The focus of this year's campaign was to thank the blood donors and to promote unpaid blood donation to meet the year round needs. The slogan adapted for this year was **"Donating blood is an act of solidarity. Join the effort and save lives"**

To commemorate this special day VISTAS in association with ESI hospital Ayanavaram organised a Blood donation camp on 17th June 2022. Many student volunteers actively donated blood and supported the cause. The event was Organised by Dr. Boopesh, Chief of Blood Bank. Medical Superintendent, Resident Medical Officer and Matrons graced the occasion to appreciate the efforts of the students.

The blood donation process had three stages of medical tests prior to the collection of blood. Initially Vitals were monitored, Secondly blood type and screening for infection was done and finally a doctor consultation was carried out. Following the Medical screening blood was collected and refreshments were provided.
